

## **SUMMARY OF THE PROJECT**

**I have Created a Design for a Business Website This Design Shows the Culuture and Work Environment of the Company. Who Is Connected With Us And What are our Culture, This is a Demo Website Design, I have Used Only HTML CSS And JavaScript to Design this Website , This Design Contains many useful component that are Necessary to Design this Website like Like Header Section, Nav-Bar , Overview Section, About Section, Gallery With Scroll-bar, Contact us, Newsletter.I Can improve it More and Express my Creativity If have Some More time to work on this Project.**

**All The Images and Assets That are Used in this Website Are Already given by the flippr Team.**

**I Used Customized CSS To Design this Project and Many Custom Fonts Themes and Transitions.**

**This Website is Completely Flexible for All Type of Window Size And Screen Ration I Will be Setup Automatically**

**This Documentation Contains All the Properties of Style Effects in the Project.**

**Dut to Lack of Time I Reused Some Code Snippets from My Own Projects**

**Thank You So Much, For Giving me this Opportunity to Express my Creativity**

# Title: Flipr Finsweet Website Documentation

---

## 1. Document Structure and Meta Information

- **HTML Declaration:** The document begins with the `<!DOCTYPE html>` declaration, defining the document as HTML5.
  - **HTML Tag:** The `<html lang="en">` tag defines the language as English.
  - **Head Section:**
    - **Meta Charset:** `<meta charset="UTF-8">` specifies the character encoding as UTF-8.
    - **Meta X-UA-Compatible:** `<meta http-equiv="X-UA-Compatible" content="IE=edge">` ensures compatibility with IE browsers.
    - **Meta Viewport:** `<meta name="viewport" content="width=device-width, initial-scale=1.0">` enables responsive design for different screen sizes.
    - **Title:** `<title>Flipr Finsweet</title>` sets the document title as "Flipr Finsweet."
    -
- 

## 2. Favicon and Custom CSS

- **Favicon Link:** `<link rel="shortcut icon" href="/favicon.svg" type="image/svg+xml">` links to a custom favicon for the website.
  - **CSS Link:** `<link rel="stylesheet" href="/assets/css/style.css">` links to an external CSS file that styles the website.
  -
- 

## 3. Fonts Integration

- **Google Fonts:** Links to Google Fonts are included for the Oswald and Poppins font families, which are used throughout the site.
- 

## 4. Header Section

- **Header Tag:** `<header class="header">` defines the header section of the website.
- **Overlay Div:** `<div class="overlay" data-overlay></div>` provides an overlay effect, likely used for modal or responsive menu.

- **Container Div:** `<div class="container">` is a wrapper for content, maintaining layout structure.
  - **Logo:** `<a href="#" class="logo"></a>` includes the Finsweet logo.
  - **Navigation Buttons:**
    - **Nav Open Button:** `<button class="nav-open-btn" data-nav-open-btn>` opens the navigation menu on mobile devices.
    - **Nav Close Button:** `<button class="nav-close-btn" data-nav-close-btn>` closes the navigation menu on mobile devices.
  - **Navigation Bar:**
    - `<nav class="navbar" data-nav>` contains the main navigation links (Home, About, Team, Contact).
    - **Social Media Links:** `<ul class="nav-social-list">` includes links to social media profiles with respective icons.
- 

## 5. Hero Section

- **Hero Tag:** `<section class="hero" id="hero">` defines the hero section of the website.
  - **Container Div:** `<div class="container">` wraps the hero content.
  - **Subtitle:** `<p class="hero-subtitle">Where Webflow Meets Excellence</p>` defines a subtitle for the hero section.
  - **Title:** `<h1 class="h1 hero-title">Finsweet Services</h1>` is the main title in the hero section.
  - **Button Group:** `<div class="btn-group">` contains a Support button for user interaction.
- 

## 6. About Section

- **About Tag:** `<section class="about" id="about">` defines the about section.
  - **Banner Image:** `<figure class="about-banner">` is a placeholder for an image related to the about section.
  - **Content Div:** `<div class="about-content">` contains the main content.
    - **Subtitle:** `<p class="about-subtitle">We Believe in Quality</p>` introduces the about section.
    - **Title:** `<h2 class="about-title">"The Heartbeat of Webflow Creativity"</h2>` provides a creative and engaging title.
    - **Text Content:** `<p class="about-text">` describes the Finsweet company and its offerings.
    - **Bottom Text:** `<p class="about-bottom-text">` is additional content with an arrow icon.
- 

## 7. Gallery Section

- **Gallery Tag:** `<section class="gallery">` defines the gallery section.
- **Gallery List:** `<ul class="gallery-list has-scrollbar">` contains a series of images in a scrollable list.

- 

---

## 8. Team Section

- **Team Tag:** `<section class="team" id="team">` introduces the team section.
- **Title:** `<h2 class="h2 section-title">Our Team members</h2>` serves as the heading for the section.
- **Team List:** `<ul class="team-list">` contains a list of team members, each with an image and link icon.
- 

---

## 9. Newsletter Section

- **Newsletter Tag:** `<section class="newsletter">` defines a custom newsletter section.
- **Newsletter Card:** `<div class="newsletter-card">` is the container for the newsletter form.
  - **Title and Image:** `<h2 class="h2 newsletter-title">Subscribe to our newsletter</h2>` and an accompanying image encourage users to subscribe.
  - **Form:** `<form action="" class="newsletter-form">` includes an email input and submit button for subscribing.

---

## 10. Footer Section

- **Footer Tag:** `<footer>` defines the footer of the website.
- **Footer Top:** `<div class="footer-top">` contains the main footer content.
  - **Logo and Links:** The footer includes a logo, quick links to sections (Home, About, Team, Support), and social media links.
  - **Search Bar:** A search input for users to find content on the website.
- **Footer Bottom:** `<div class="footer-bottom">` contains the copyright information.

---

## 11. Go-To-Top Button

- **Go-To-Top Button:** `<a href="#top" class="btn btn-primary go-top" data-go-top>` allows users to scroll back to the top of the page.

---

## 12. Scripts and Icons

- **Custom JS:** `<script src="/assets/js/script.js"></script>` links to custom JavaScript for added functionality.
  - **Ionicons:** `<script src="https://unpkg.com/ionicons@5.5.2/dist/ionicons/ionicons.esm.js"></script>` `type="module"` links to Ionicons for icon usage.
-

# 1. Custom Properties

**File Section:** #CUSTOM PROPERTY

## Overview

This section defines custom CSS variables (also known as custom properties) for consistent use throughout the stylesheet. By using variables, the design becomes easier to maintain and update.

## Variables

- 

### Colors:

- - --raisin-black-1: Dark gray used for backgrounds.
  - --raisin-black-2: Slightly darker gray.
  - --raisin-black-3: Another shade of dark gray, used in borders and shadows.
  - --eerie-black: Very dark gray, almost black, used for deep backgrounds.
  - --light-gray: Light gray, used for text and subtle backgrounds.
  - --platinum: Very light gray, used for backgrounds.
  - --xiketic: Dark purple, used for footer and buttons.
  - --orange: Vibrant orange, used for highlights, buttons, and accents.
  - --white: Pure white, used for text and backgrounds.
  - --onyx: Dark gray with a slight blue tint, used for subtle backgrounds.
- 

### Typography:

- - Font families and font sizes (fs-1 to fs-11).
  - Font weights (fw-400, fw-500, fw-700).
- 

### Transition:

- - Different transition timings for smooth animations.

- 

### Spacing:

- - --section-padding: Standard padding for sections.

- 

### Clip Path:

- - Custom polygon shapes for buttons and other elements.

---

## 2. Reset Styles

**File Section:** #RESET

### Overview

This section contains styles that reset or normalize the default browser styling. It ensures consistency across different browsers.

### Key Elements

- \* { margin: 0; padding: 0; box-sizing: border-box; } ensures that all elements have no margin or padding by default, and the box-sizing is set to border-box.
- Styles for links, lists, buttons, inputs, and images ensure they behave consistently.

---

## 3. Custom Fonts

**File Section:** #CUSTOM FONT

### Overview

This section imports and defines custom fonts used throughout the site. The @font-face rule is used to define a custom font called "Refault."

### Key Elements

- font-family: 'Refault'; specifies the custom font.
  - Different formats (eot, woff, woff2, ttf) are provided for compatibility across various browsers.
-

## 4. Reused Styles

**File Section:** #REUSED STYLE

### Overview

This section contains styles that are reused across multiple components, such as containers, headings, buttons, and section titles.

### Key Elements

- **Containers:** .container class adds standard padding.
  - **Headings:** .h1, .h2, .h3 define the styles for different levels of headings.
  - **Buttons:** .btn, .btn-primary, .btn-secondary, .btn-link define the styles for buttons and their interactive states.
  - **Section Titles:** .section-title adds styling and decorative lines to section headings.
- 

## 5. Component-Specific Styles

### Header

**File Section:** #HEADER

- **Structure:** .header styles the header, making it fixed at the top with a dark background.
- **Navigation:** .navbar styles the navigation bar, including the open and close buttons.
- **Overlay:** .overlay styles the background overlay that appears when the mobile navigation is open.

### Hero Section

**File Section:** #HERO

- **Background:** .hero sets a background image for the hero section.
- **Text:** .hero-title, .hero-subtitle define the styles for the main title and subtitle, including text color and spacing.
- **Buttons:** .btn-group styles the buttons within the hero section.

## About Section

### File Section: #ABOUT

- **Background:** .section-wrapper, .about set the background images for the section.
- **Content:** .about-content styles the content box, including padding, background color, and text styles.
- **Text:** .about-subtitle, .about-title, .about-text define the styles for the text within the about section.

## Gallery

### File Section: #GALLERY

- **Layout:** .gallery-list styles the gallery as a horizontal scrollable list.
- **Items:** .gallery-item img styles the images within the gallery, adding borders and shadows.

## Team

### File Section: #TEAM

- **Layout:** .team-list styles the team section as a grid of team members.
- **Interactivity:** .team-member adds hover effects to team member images, including border color changes and icon overlays.

## Newsletter

### File Section: #NEWSLETTER

- **Card:** .newsletter-card styles the newsletter subscription card, including background image and padding.
- **Input Field:** .newsletter .input-field styles the email input field, including colors and placeholder text.

## Footer

### File Section: #FOOTER

- **Top Section:** .footer-top styles the top section of the footer, including background images and padding.
- **Menus:** .footer-menu-list, .quicklink-list style the menu and quick links.
- **Social Links:** .footer-social-list styles the social media icons.
- **Bottom Section:** .footer-bottom, .copyright style the bottom section of the footer.

## Go To Top Button

### File Section: #GO TO TOP

- **Button:** .go-top styles the "go to top" button that appears when the user scrolls down.
- **Interactivity:** .go-top.active defines the button's visibility and interactivity when active.
